**CARTERS' LITTLE LIVER PILLS.**  
CURE  
**SICK**  
Headache, eye, throat, liver, lungs, and all other ailments. These pills are the only ones that will cure all the above ailments. They are sold in all drug stores.

**HEAD**  
ACHE  
In the head of many men and women, there is a pain which is not only annoying but also dangerous. It is caused by a congestion of the blood vessels of the head. The only cure for this is the use of Carter's Little Liver Pills.

**CANCER ON THE LIP**  
CURED BY  
**AYER'S Sarsaparilla**  
"I consulted doctors who prescribed for me but to no purpose. I suffered in agony for several years. Finally, I began taking Ayer's Sarsaparilla. In a few weeks I noticed a decided improvement. Encouraged by this result, I persevered, and in a few months the cancer was completely cured. I am now well and happy, and I can say that Ayer's Sarsaparilla is the only medicine that cured me."—J. W. McNamee, Fall River, N. B.

**THE PROPOSED SEALING REGULATIONS UNWORKABLE.**  
**MR. DICKEY MINISTER OF MILITIA.**  
Change in space for cattle on Niagara Peninsula. The Association of Ontario Farmers, in a letter to the Minister of Militia, has expressed its opinion that the proposed sealing regulations are unworkable. The regulations, which were proposed by the Minister, require that all cattle be sealed with a red wax stamp, and that the stamp be renewed every year. The Association of Farmers, however, claims that the regulations are too strict, and that they will be difficult to enforce.

MUNICIPAL ACCOUNTS.

**THE QUESTION OF A PROVINCIAL AUDITOR DISCUSSED.**  
**MR. STRATTON'S BICYCLE TAX BILL.**  
Provisions of the Electric Railway Act. The question of a provincial auditor has been discussed in the House of Commons. Mr. Stratton's bicycle tax bill has also been discussed. The bill proposes that all bicycles be taxed, and that the tax be used for the purpose of improving the roads.

USE OF SOAP.

**ON WASH DAY; AND EVERY DAY.**  
The question of the use of soap has been discussed in the House of Commons. The House has decided that the use of soap is essential for the health of the people, and that it should be encouraged.

Mr. Joseph Kavanagh proposed the text of the Parliament to be the first to reply. He spoke of the parliament as being to be the first to reply to the House. Referring to the time when Confederation of the Dominion took place, he said that all political parties, notwithstanding their differences, even their quarrels, were united in the desire to do that great work. He trusted that the result of the conference would be to produce a new union.

**Permitted by a Washpost**  
 Bradford, Pa., April 9.—The work crews of the Pennsylvania Railroad and Pittsburgh Railroad early this morning were permitted to leave their work on the railroad tracks and go to the beach. The official account of the northeast coast of Long Island Sound, where the train struck a washout and left the beach, says that the workmen were engaged in a game of football. The game was being played on the beach, and the workmen were buried under the wreck and killed. The contractor engaged to build the bridge was killed.

Belleville, Thursday, April 11.

OUR BUTTER AND CHEESE TRADE.

The time for growing grain for export in this Province has passed, and there are some people who, no doubt, blame the Government for it. According to them, if it rains when we do not need it, it is the fault of the Government, and if it does not rain when we do need it, it is the fault of the Government. But, considering what, why, or wherefore is the cause, they rush at a conclusion, and make the "poor" that be "suffer through their own ignorance." There are, however, other causes which make the grain fail, and the profit will be far beyond the results of the old grain raising era. We need not tell a practical farmer what this means. Nearly every farmer in Hastings and Prince Edward knows that dairying and cheese making are the chief rural industries of Canada at the present, and no doubt will be for some time. There are more farmers than for this. Until the last few years, the farmers have been selling their farms by the bushel-taking from them the nutriment which will make the continuation of cropping almost a failure. Then the next point must be to restore fertility to the land. We cannot buy expensive fertilizers and go on as before. Why? The grain market of the world is too low to compete in successfully, therefore attention must be given to some industry which will restore our farms and still pay. The butter and cheese industry of Canada, therefore, is a double blessing. There are farmers to-day who are living on money, and who are meeting their demands with as good grain and better than they ever did, simply because they turn their attention to a traffic which pays, and do not follow raising barley for the Americans to collect their harvest, but they do, on as many as can do, and the blue-rain people are doing.

The beginning of dairying is comparatively recent, and may be said to have gained its present good name at the Centennial in 1876. The Governor of New York State speaks of it as follows: "At the Centennial Exposition Canada won the rewards of excellence for her dairy products, and ever since Canadian farmers have been benefited by that advertisement and advanced at the expense of the New York farmer." So we see that the Americans, who have no market for grain, rather envy our cheese business and want to take the credit of giving it to us; but then the field was open for competition, and we took the market. The Americans are not to blame. The Yankees should have realized, by their experience and done better at the World's Fair, but Canada was not to be overruled in its staple production, and everyone knows the results of the butter and cheese trade. Why Canada was again loaded down with models, diplomas and awards.

Then let us compare this trade of the two countries in another light. Canada produces her cheese, although this price is not fixed here. This keeps up the quality, and if the quality is good the price rises in the British market will be good. In the United States, which is a land of woolen tunics, leopards, hams, etc., we see things in a different light. The real cause has no protection or standing. Inferior goods are manufactured with the inferior trade and establish a bad reputation when exported. The American Agriculturalist explains it all as follows: "The phenomenal traffic has been increased, that leading British merchants are now demanding a warranty of purity attached to each consignment of cheese sent from these shores." Does Canada require a warranty along with each consignment? No. All that is necessary is to follow the example of the Germans, whom we know, if they send away nothing but a month's eggs, put on it in Germany. So can we by stamping on our cheese "made in Canada," establish its purity without a written guarantee. Americans are noted for their "filled" cheese, which consists of skim milk, old butter, grease, old lard, oleomargarine, etc. It is at once apparent that such trash as this would ruin any reliable market. Why is Canada not in this sold? Simply because her cheese industry is protected at home and established abroad.

Now let us look at the result of the competition between the 70 millions in the States and 5 millions of Canadians in the

cheese industry. In 1878 Canada exported 40,000,000 lbs. of cheese, in 1884 we exported 100,000,000 lbs. In 1891 the Americans exported 145,000,000 lbs., and in 1891 it had fallen to 20,000,000 lbs., thus showing an increase of about 100,000,000 lbs. in the Canadian export, and a decrease of about 125,000,000 lbs. in the American. Is the result one to be astonished at when we see the cause? Let Mr. Laurier open up our markets with "English Free Trade," and the Canadian cheese trade, which has ruined the reputation of our jealous neighbors, and away goes our cheese market.

The cheese trade we are assured is the most paying on the farm, and with "Free Trade" we might sell a few of our fancy cheeses in New York at a fair price, but in return our home market would be ruined by trash at trashy prices. But the Liberal says it will not hurt the British trade any way. How can it help it? This skin cheese will be sent to England as Canadian make, and reason will tell whether our farmers would suffer an injury. This has already been attempted, but without success, as our protective policy is a safeguard.

Let us see at the dawn of another advancement in dairying. The Minister of Agriculture is pushing the products of our butter factories on the British market with remarkable success, really running a race with the Americans. This is a new thing and we must furnish a good article if we wish to be successful. "The trade in oleomargarine," says the agricultural report from Washington, "has been the greatest business in the U. S. to the extent of \$5,000,000 a year." Let Canada now guard this new outlet, and not become victimized, as the above report shows that the U. S. has been. Every farmer in Canada should know that the cheese industry and not vote against a Government which furnishes such protection as this, and for a law to give a certain power which would ruin the only safe-guard the people have in this time of depression.

## A Happy Choice.

AFTER 25 YEARS.

A Wise Mother Chooses the Right Medicine, and Her Son Tells of its Wonderful Effects.

GRACE. — In the spring of 1901 I got a bottle of Dr. H. B. for my mother who had been troubled for years with Sick Headache. I got it from Mr. H. D. Dixon, of Woodstock, N. C. It was not two weeks before she was free from the headache. I returned the bottle to her. She used it for three months and has had no headache since. When you are it is Dr. H. B. cure her, as she took no other medicine.

JONATHAN A. GIBBS,  
Hartford, N. C.

Measure the length of your quilt before endeavoring to stretch your legs.  
Sleeplessness is due to nervous excitement. The delicate constitution, the flimsy nerves, the nervous man, and those whose occupation necessitates a great deal of worry, all suffer from nervousness. Sleep is the sleep of the stomach from all impurities. It is a few drops of Dr. H. B. which cleanses the system, containing no mercury, and no purgative, and no other harmful or dangerous ingredients.

He who accumulates does well, but he who preserves does better.

To remove worms of all kinds from children or adults Dr. H. B. Worm Syrup is a safe and sure remedy.  
As a pillow a clear conscience will beat gold and silver.

C. A. Livingston, Plattville, Mo. — I have much pleasure in recommending Dr. H. B. Electric Oil. It has cured my Rheumatism, and I have used it for some time. In my own case I will say for Dr. H. B. is the best preparation I have ever tried for rheumatism.

Be the last to cross the river of doubtful investments.

The sure cures cure to Haggard's Pectoral Balsam. It heals the Lungs and cures Coughs and Croup.

Put the brakes on the investment that hurries you.

The pains endured by the early Christian martyrs were no doubt excruciating but not so prolonged or scarcely more dreadful than those experienced by the sufferers from inflammatory rheumatism—a disease which is made more acute by the use of Dr. H. B. and other complaints and a medicine of the purest as well as the most salutary kind.

# Dont Play . . .

With Two Kinds of Fire!  
You insure against one kind, don't risk that by another kind without a faulted insurance scheme. They may be all right, but you don't know it very much. They haven't been merited by the Liverpool, London & Globe Insurance Company, a good, honest, pure for security insurance. We have that kind and the money to prove it.

**W. P. HUDSON, Agent.**  
BELLEVILLE

THE LITTLE GIRL WHO WASN'T.

"I wish I had lived when this letter was new," Veronica Larnam said when her lover returned to her the letter addressed to their private intimacy. "Life in Venice was a life of love. I have read of it. It was all music and romance and courtship and magnificence. People were not so busy about life then; they lived—like Larnam was a beautiful woman. They have her portrait in the Hotel de la Ville by Lucien. She holds a rose to her lips and laughs. She was killed by her husband for an affair. She had those eyes on her throat when she drew the stilette through it. At least so Carlo used to tell me. But perhaps it was not true."

"Do not wear them," said Andre to whom she was speaking. "Do not wear them if they are blood-stained. You know they are pieces of madness."

She laughed.  
"You are a superstition. You northerners are not. I like to wear them for that very reason of their tragedy."

She took up the necklace and clasped it round her throat; some tendril of her hair fell over her eyes and she gave a involuntary little cry of pain; Andre had released her hair from the clasp. He took her hand and she gave a involuntary little cry of pain; Andre had released her hair from the clasp.

"Do not wear them," said Andre to whom she was speaking. "Do not wear them if they are blood-stained. You know they are pieces of madness."

She laughed.

THE LITTLE GIRL WHO WASN'T.

"I wish I had lived when this letter was new," Veronica Larnam said when her lover returned to her the letter addressed to their private intimacy. "Life in Venice was a life of love. I have read of it. It was all music and romance and courtship and magnificence. People were not so busy about life then; they lived—like Larnam was a beautiful woman. They have her portrait in the Hotel de la Ville by Lucien. She holds a rose to her lips and laughs. She was killed by her husband for an affair. She had those eyes on her throat when she drew the stilette through it. At least so Carlo used to tell me. But perhaps it was not true."

"Do not wear them," said Andre to whom she was speaking. "Do not wear them if they are blood-stained. You know they are pieces of madness."

# Wall Paper

THE designs of our spring wall papers are beautiful and the colorings exquisite. The effects they produce upon the wall have been studied with intelligent sympathy and the long-felt wants of a few years ago have been provided for with cultivated taste. A judicious employment of any of our papers leaves little to be done in a room. A few ornaments, according to the taste or wealth of the occupant, are all that is necessary to contribute to its beauty and comfort. Our papers thoroughly represent the standard of the prevailing taste in Interior Decorations.

## Consumption.

The incessant wasting of a consumptive can only be overcome by a powerful concentrated tonic, such as Scott's Emulsion. If this wasting is checked and the system is supplied with strength, the combat the disease there is hope of recovery.

## Scott's Emulsion

of Cod-Liver Oil, with Hypophosphites, does more to cure Consumption than any other known remedy. It is for all Affections of Throat and Lungs, Coughs, Croup, Bronchitis and Wasting.

Scott & Bown, Limited, 41, Abchurch Lane, E.C. 4, London, E.C. 4, England.

have to be reduced to meet this competition. But, says the Montreal Gazette, this proposition is offered in good faith. Montreal is not to compete with Toronto. The latter is the great city and Montreal is the second. The latter is the great city and Montreal is the second. The latter is the great city and Montreal is the second.

Let us not be misled by the fact that at handwork in the mechanical trades, if they were ordinary working citizens, the result of their under influence would be to make the industry will be a crying one. Better not stand at agricultural pursuits, raising cows, pigs and poultry, and the food which these animals would consume, and thus be made self-supporting, than have them housed up working at inhuman and wooden wages, at 20c a day.

## W. C. A. Notes.

LONG BERRYING ON PROHIBITION.

Long Berrying made an important speech in Glasgow, not long since, in which among other things, he said fully and clearly the drink question. He went on to say that the drink question is not a new one. It is as old as the hills. It is a question of life and death. It is a question of the health and happiness of the people. It is a question of the future of the nation.

## EDITORIAL BRIEVITIES.

DALTON MCCARTHY'S HEAD HAS SHRUNK SEVERAL INCHES SINCE WEDNESDAY MORNING.

Mr. Dalton McCarthy is one of that class of people who rush in where wise persons fear to tread.

The Government dare not open any Ontario constituency since you "turned Turk" on them, Mr. McCarthy!

Did you hear anything, Mr. Green?

Now, Mr. Dalton McCarthy, that you have seen yourself as others see you, don't you think the grassroots which you attributed to yourself are only misplaced self-admiration, commonly called self-conceit?

The Brockville Times will for the future give credit to the *Intelligencer* for the editorial matter which it takes from these columns. It is rather too much of an imposition on good nature to see our paragraphs stolen by the Times (as it has done for years) and credited to that journal by the Mail and Empire, as has happened more than once lately.

The *Montreal Herald* says that the Opposition candidates there "pledged themselves to support remedial legislation, irrespective of its authorship."

It will need very powerful magnifying glasses to see Greenway, Nisbet and Dalton McCarthy shortly, if they continue to set themselves up against public opinion, as they have of late been doing.

Now the boomers call a day's aquatic sport on the bay a "Summer Carnival," what was in former times termed a regatta. What was in former times termed a regatta. What was in former times termed a regatta.

Important Speech by Premier

Bowell in the Senate.

THE MINORITY WILL GET JUSTICE

"If Manitoba is Fictitious It Will Keep

This Question Out of Dominion Politics—

—If the Government Has to

—As It Is Treated as a House

—Responsibility.

Ottawa, April 23.—More interest attached

to the proceedings in the Senate to-day

than yesterday. In the House, Mr. Bowell

rose, moved the address, and Mr. Ar-

rington, the second, delivered an

excellent speech. However, Mr. Scott

congratulated both gentlemen upon their

address and then proceeded to

criticize the speech from the Throne.

Coming to a consideration of the Mani-

toba school question he strongly con-

demned the action of the Government

and urged that Canada should

be satisfied with the rights of the

minority at Confederation. He de-

clared that there was no such thing as

provincial rights, that rights of the

minority were a fiction, and that the

only way to get justice for the

minority was to have a referendum

on the question of Manitoba's

status. He then moved a resolution

that the Government should

immediately call a referendum on

the question of Manitoba's

status. He then moved a resolution

and rapidly growing children derive most benefit from Scott's Emulsion, than all the rest of the food they eat. Its nourishing powers are felt almost immediately. Babies and children thrive on Scott's Emulsion, and no other form of food is assimilated.

## Scott's Emulsion

stimulates the appetite, enriches the blood, overcomes wasting and gives strength to all who take it. For Coughs, Colds, Sore Throat, Bronchitis, Weak Lungs, Emaciation, Consumption, Blood Diseases and all forms of Wasting. *Sold for Cash.* Free. Scott & Borne, Baltimore, Md. Agents, 50c & 1.

## Daily Intelligence.

BELLEVILLE, WEDNESDAY, APR. 24.

## HALDIMAND.

In the by-election in Haldimand on the 17th inst. there were 289 voters more than at the general election of 1891. Dr. Menzies received 119 votes more than he did four years ago, and Mr. McCarthy polled 389 fewer votes than did Mr. Collier at the general election.

## THE SCHOOL QUESTION.

The Globe, in its issue of the 22nd inst., made inquiry as to the Premier, Mr. Mackenzie Bowell has been heard from on the Manitoba school question, and his straightforward, statesman-like utterances will be hailed by the country with satisfaction, and especially so in contrast with Laurier's transparent attempts to justify a statement of his opinions—if he has any ideas on the subject that are not subject to change in a moment at the dictates of party expediency.

The Premier's speech has cleared the air, and satisfactorily dispelled the haze of doubt that partially obscured the public view of the subject.

The Montreal Star, which is a thorough independent journal, has, in its issue of the 22nd, an editorial article on the subject, in which it says:

After such an utterance it would be absurd to expect the Premier to change his mind in dealing with the most dangerous, if not the most important question of the hour. There may be differences of opinion as to the expediency of the Premier's speech, but there is no possibility of mistaking the intention of the First Minister. Whatever the Premier's opponents may say, the Premier's utterances, we do not think any one will pretend that they are not in character with the termination of his term of office. He has declared that if the Manitoba Legislature does not apply reasonable legislation to the benefit of the Manitoba minority, the Dominion Government will not hesitate to take the Ontario Government to task for its failure to do so. He will fulfill his promise. The fact that Sir Mackenzie Bowell has made this statement of his scheme for ameliorating the condition of the Manitoba minority does not detract from the frankness of his utterance. He is not called upon to make any statement on this point until the Manitoba Legislature has had an opportunity of acting. In fact, it would be entirely unjust to say that he has made any statement to the contrary.

His speech was a dignified and able one, and the Premier has shown himself to be the possessor of a fine intellect. He has not only shown himself to be a statesman, but he has also shown himself to be a man of high character. He has shown himself to be a man of high character, and a man of high character is a man of high character.

**FAMILY SATISFIED.**  
A telegram from Pictou on the 21st inst. stated that a meeting of prominent citizens from all parts of Prince Edward was held in the opera house in that town, to listen to addresses from Mr. J. L. Haycock, Mr. P. P., and Mr. John Cavan. Mr. P. P. was the President, and the meeting was held in the opera house.

At a meeting of the Ontario Legislative Council, held on the 21st inst., Mr. J. L. Haycock, Mr. P. P., and Mr. John Cavan were present. Mr. J. L. Haycock was the President, and the meeting was held in the opera house.
